For ClassPad II Series

ClassPad Manager Subscription (for Windows®)

User's Guide

CASIO Education website URL http://edu.casio.com

Access the URL below and register as a user.

http://edu.casio.com/dl/

Manuals are available in multi languages at http://world.casio.com/manual/calc

Getting Started

- You can use ClassPad Manager to develop programs and eActivities using the same commands as those available on the ClassPad. You can store your programs and eActivities on your computer.
- ClassPad Manager provides the following capabilities.
 - \cdot ClassPad emulation, which lets you perform ClassPad operations on your computer
 - · ClassPad emulation screen capture (to the clipboard) and screen printing
 - \cdot Copy and paste of data (text, values, expressions, etc.) between ClassPad Manager and other Windows applications

Note

- See your ClassPad User's Guide for details about operating the on-screen ClassPad unit emulator.
- Display examples shown in this User's Guide are intended for illustrative purposes only. The actual text and values that appear on display may differ from the examples shown in this User's Guide.

System Requirements

Operating Systems:	Windows Vista [®] (32-bit), Windows 7 (32-bit/64-bit), Windows 8 (32-bit/64-bit) (Desktop UI), Windows 8.1 (32-bit/64-bit) (Desktop UI) Your hardware configuration needs higher than functionalities that operating system recommends.
Computer:	Computer with one of the Windows operating systems pre-installed (Excluding computers with an upgraded operating system and self-built computers.)
Disk Space:	100MB for installation and uninstall
Note:	Actual requirements and product functionality may vary based on your system configuration and operating system.
Other:	Video adapter and display must support resolution of XGA (1024×768) or higher (up to FHD (1920×1080)), 16 bit or higher system color. Adobe [®] Reader [®] 8.0 or later.

Note

- For the latest information about system requirements, visit the website at the URL below: http://world.casio.com/support/os_support/
- Windows and Windows Vista are registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.
- Adobe and Reader are either registered trademarks or trademarks of Adobe Systems Incorporated in the United States and/or other countries.
- Company and product names used herein are trademarks of their respective owners.
- Note that trademark [™] and registered trademark [®] are not used within the text of this user's guide.

Chapter 1 Installing, Uninstalling or Updating the Software

Installing

■ To install ClassPad Manager

- 1. On your computer, double-click the ClassPad Manager application EXE file.
- 2. Perform operations as instructed by the text that appears on the screen.

Uninstalling

Use Windows Control Panel to uninstall the software.

Auto Notification of Update

If your computer is connected to the Internet, the application will connect to the CASIO server whenever you start it up. When there is an update file for ClassPad Manager on the CASIO server, a dialog box will appear to let you know.

Auto Notification of Update
A new update is available.
To access the update page, click here: http://edu.casio.com/
Disable Auto Notification of Update

http://edu.casio.com/: Clicking this link will start up your browser and go to the CASIO website.

Clicking [OK] will close the dialog box.

You can disable further auto-notification of updates by selecting the check box next to "Disable Auto Notification of Update" before clicking [OK]. To re-enable auto-notification of updates, select "Auto Notification of Update" on the ClassPad Manager Help menu.

Starting Up and Quitting ClassPad Manager

To start up and quit ClassPad Manager

- 1. On your computer's desktop, double-click "ClassPad Manager".
 - This starts up ClassPad Manager.
- 2. On ClassPad Manager, perform the management tasks you want.
- 3. To quit ClassPad Manager, move the cursor to the ClassPad Manager window, right-click anywhere within the ClassPad Manager or click the title bar, and then select [Exit] on the shortcut menu that appears. You can also click **Shift** Oclear to quit ClassPad Manager.

Note

The dialog box shown below appears when you start up ClassPad Manager for the first time.

Home Folder ×
Choose your home folder Welcome. ClassPad Manager helps you organize your files using a home folder. ClassPad Manager can provide you with a default folder or you may choose one on your own below by clicking Browse. Folder path
C:\Users\fx\Documents\CASIO\Cla Browse
OK Cancel

Clicking [OK] will configure Documents\CASIO\ClassPad Manager for ClassPad II as the ClassPad Manager home folder. You could also click [Browse] and select a different folder as the home folder. For details about configuring the home folder, see "Home Folder" on page E-11.

ClassPad Manager Data

Your ClassPad stores eActivity data in one memory area, and all other data (application data and variables) in a different memory area. eActivity data is stored in "eActivity area", while other data is stored in "Main memory". For details, see the ClassPad User's Guide.

ClassPad Manager stores both types of data on your computer's hard drive in "virtual ClassPad" (.vcp) format files. Under initial default settings, a file named "default.vcp" is created automatically for use as the ClassPad Manager's "Active Document".

Chapter 2 Using the ClassPad Manager

Note

For details about ClassPad applications and operations, see the ClassPad User's Guide.

ClassPad Manager Overview

The ClassPad Manager puts a virtual ClassPad on your computer screen, which you can use to perform almost all of the operations that are available on your ClassPad. This section explains the differences between ClassPad Manager operations and the ClassPad unit, and among the three ClassPad Manager modes.

Differences between the ClassPad Manager and the Functions of ClassPad Applications

The following are the differences between the ClassPad Manager and the functions of the ClassPad applications.

• Certain ClassPad settings and functions that are not required when running on a computer (such as touch panel calibration) are disabled on the ClassPad Manager. Attempting to access a disabled setting or function will cause the message "Unavailable" to appear on the display.

- Use the procedure below to install an Add-In application.
 - 1. Use Explorer to open the Home Folder.
 - 2. Copy to the Home Folder the C2A file of the Add-in application you want to install.
 - 3. On your ClassPad Manager, display the Application Menu.
 - The icon of the Add-In application you installed should be displayed on the Application Menu.

ClassPad Manager Display Mode

The ClassPad Manager has three display modes: a Resizable Mode, a Landscape Mode and a Fixed-size Mode.

- You can use the Landscape Mode while any one of the following is displayed: Application Menu, or the Main, Graph & Table, Conics, or Physium application.
- The Resizable Mode/Landscape Mode provides functionality that is virtually identical to that as the ClassPad, but in a typical Windows operating environment. The Resizable Mode/Landscape Mode also provides a number of special extended functions that are not available on the Fixed-size Mode. For details, see "Using ClassPad Manager in the Resizable Mode/Landscape Mode" on page E-12.
- The Fixed-size Mode displays a virtual ClassPad that looks almost the same as your ClassPad unit.

Resizable Mode

Landscape Mode

Fixed-size Mode

■ To select the display mode

Right-click anywhere within the ClassPad Manager or click the title bar, and then click [Resizable Mode], [Landscape Mode] or [Fixed-size Mode] on the shortcut menu that appears.

ClassPad Manager Operations

This section explains the operations you can perform on the Resizable Mode, Landscape Mode and Fixed-size Mode screens of the ClassPad Manager.

Computer Keyboard Operations

The following are the operations you can perform on your computer keyboard to control the ClassPad application that is currently running in the ClassPad Manager.

- Alphanumeric input
- Cursor key operations (The cursor keys of your computer correspond to the ClassPad cursor keys.)
- Input of special characters (like π) and commands using shortcut key operations

Note

For information about shortcut keys, see "ClassPad Manager Shortcut Keys" in the Appendix on page E-24.

Copy and Paste

■ To copy a screen image to the Windows clipboard

- 1. Display the image you want to copy.
- 2. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [Capture Screen] on the shortcut menu that appears.
 - The above procedure copies an image of the screen you displayed in step 1 to the Windows clipboard.
 - After that, you can then paste the image into another Windows application.

Tip

- If Resizable Mode/Landscape Mode is selected as the display mode, select [Capture Screen] on the [Edit] menu in step 2 instead of using the shortcut menu.
- If you have two application windows on the display in the Resizable Mode/Landscape Mode, the above [Capture Screen] command will copy both windows as they appear on your computer screen. If you want to copy a specific application window, click the window to make it active and then click [Capture Current Panel] on the [Edit] menu in step 2 of the above procedure.

■ To copy alphanumeric text from the screen to the Windows clipboard

1. On the ClassPad Manager, drag your mouse pointer across the range of text you want to select, so it becomes highlighted.

2. On your computer keyboard, press [Ctrl] + [C] to copy the selected text.

- This copies the text you selected in step 1 to the Windows clipboard (as Unicode text).
- After that, you can paste the text you copied into another Windows application (as Unicode text).

■ To paste text from the Windows clipboard into the ClassPad Manager

- 1. In a Windows application, copy the text you want to the Windows clipboard.
- 2. On the ClassPad Manager, open the ClassPad application into which you want to paste the clipboard text.
- *3.* Right-click anywhere within the ClassPad Manager or click the title bar, and then click [Paste Special] on the shortcut menu that appears.
 - This pastes the text on the Windows clipboard into the ClassPad Manager.

Note

"Paste Special" detects what is on the Windows clipboard and then pastes it as Windows text, or MathML data.

You can use "Paste Special" to paste text or MathML data created by other Windows applications.

Important Warning

When the ClassPad detects MathML data on the clipboard, the ClassPad will attempt to paste it in a 2D math form (natural input form) without warning you. There is no guarantee that the pasted form will be identical to what was copied from other applications.

vcp File Operations (New, Open, Save, Save As)

This section explains how to perform the following vcp file operations on the ClassPad Manager: New, Open, Save, and Save As.

■ To create a new vcp file

- 1. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] [New] on the shortcut menu that appears.
 - This displays the Create New Document dialog box.
- 2. Type the name of the new file into the "File Name" box.
- 3. Click [Save].
 - This creates a new vcp file and makes it the active document.

			ClassPad	Manage	r	-	x
File(F)	Edit(E)	Applic	ations(A)	Window(W)	Help(H)	
			default	-		x	
Menu	Resize	Swap	Keyboard				
MENU	0						

■ To open an existing vcp file using drag and drop

Drop the vcp file into the ClassPad Manager.

■ To open an existing vcp file using the menu command

- 1. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] [Open] on the shortcut menu that appears.
 - This displays the Open dialog box.

2. On the dialog box, select the file you want to open and then click [Open].

• This opens the file you selected and makes it the active document.

Note

You can also use the above procedures to open an mcs or fls file created using a previous ClassPad Manager version. Doing so, however, will convert the file to vcp format automatically.

To save the currently open vcp file

Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] - [Save] on the shortcut menu that appears.

Note

The current active document is saved automatically whenever you quit ClassPad Manager. When you start up ClassPad Manager the next time, the active document that was open during your last session opens automatically.

■ To save the currently open vcp file under a different name

- 1. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] [Save As] on the shortcut menu that appears.
 - This displays the Save As dialog box.
- 2. Type the new name into the "File Name" box.
- 3. Click [Save].
 - This saves the currently open vcp file under the new name and makes the new file the active document.

Home Folder

The home folder is where ClassPad Manager creates your default document.

You can also use the home folder as a ClassPad Storage area. Storing an XCP, VCP, C2P, C2B, or C2A file in the ClassPad Storage area will make it available for use by ClassPad Manager. For details about the Storage area and XCP/VCP/C2P/C2B/C2A files, see the ClassPad User's Guide.

By default, the home folder is located in Documents\CASIO\ClassPad Manager for ClassPad II.

To change the home folder

- 1. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] [Change Home Folder] on the shortcut menu that appears.
 - This will display a Home Folder dialog box like the one shown below.

Home Folder ×
Choose your home folder Welcome. ClassPad Manager helps you organize your files using a home folder. ClassPad Manager can provide you with a default folder or you may choose one on your own below by clicking Browse. Folder path
C:\Users\fx\Documents\CASIO\Cla Browse
OK Cancel

- 2. Click [Browse].
 - This displays the Browse Folder dialog box.
- $\it 3.$ Select the folder you want to use as the home folder and then click [OK].
 - This returns to the Home Folder dialog box.
- 4. Click [OK].
 - This registers the folder you selected in step 3 as your home folder.

Clearing Main Memory (Reset)

■ To clear all data, except for eActivity files

- 1. Right-click anywhere within the ClassPad Manager or click the title bar, and then click [File] [Reset] on the shortcut menu that appears.
 - This will display a confirmation dialog box with the message "Reset Memory? Are you sure?".
- 2. To clear memory, click [Yes]. To cancel the operation without clearing anything, click [No].

Using ClassPad Manager in the Resizable Mode/ Landscape Mode

Resizable Mode/Landscape Mode Screen Structure

The following shows the structure of the ClassPad Manager in the Resizable Mode/Landscape Mode.

Resizable Window/Landscape Window

Note

The Resizable Window size can be changed by clicking border and then dragging it to the size you want. Adjust the Resizable Window so the ClassPad OS screen is at least 320×528.

Floating Menu Bar	The menu bar has five menus: File, Edit, Applications, Window, and Help. The menu bar "floats", which mean that you can move it around independent of the Resizable Window/Landscape Window.
Function Bar	The function bar includes four buttons that correspond to the ClassPad's icon panel (Menu, Resize, Swap), along with a "Keyboard" button that corresponds to the ClassPad's [Keyboard] key.

Status Bar

The status bar shows the following information.

- ① ClassPad Manager status and other messages
- ② Current zoom setting (Normal or Large) For more information, see "Changing the ClassPad OS Screen Zoom Setting (Zoom)" on page E-14.
- ③ Size of ClassPad OS screen displayed on the current window

Using the Floating Menu Bar to Start Up a ClassPad Application

You can start up an application by clicking the [Applications] menu and then the name of the application on the menu.

Changing the ClassPad OS Screen Zoom Setting (Zoom)

To change the ClassPad OS screen zoom setting, right-click anywhere within the window or click the title bar, and then click [Zoom] - [Normal] or [Zoom] - [Large].

Note

You can also change the zoom setting by clicking [Zoom] - [Normal] or [Zoom] - [Large] on the floating menu bar's [Window] menu.

Displaying Key Palettes

Clicking [Window] - [Palette] on the floating menu bar will display a sub-menu of key palettes. Click a key palette name to display it. Each key palette can be opened, closed and repositioned independently.

Note

You can also display a soft keyboard by clicking the [Keyboard] button on the function bar, just like on your ClassPad.

Generating MathML Data

ClassPad Manager can output algebraic expressions and text you input with the Main application, eActivity application, or other application as a MathML file (.mml). You can also copy algebraic expressions and text as MathML data (content, presentation, or combined format) to the Windows clipboard.

■ To export a selected algebraic expression to a MathML file

Example: To output an algebraic expression input with the Main application to a MathML file

- 1. Click [Applications] [Main] to start up the Main application.
- 2. Input the algebraic expression you want to output to the MathML file.
- $\it 3.$ Drag your mouse pointer across the expression to select (highlight) it.

- 4. Click [File] [Export MathML].
 - This displays the Save As dialog box.
- 5. Type in the file name, and then click [Save].
 - This saves the expression you selected in step 3 as an mml file.

To copy a selected algebraic expression as MathML data to the Windows clipboard

- 1. Select (highlight) the expression you want to copy by dragging your mouse pointer across it.
- 2. Click [Edit] [Copy Special] [MathML].
 - This displays the sub-menu shown below.

		ClassPac	l Manager		- 🗆 🗙		
File(F)	Edit(E)	Applications(A)	Window(W)	Help(H)		_
	Co	opy Special(C)	•		eActivity(E)	•	1
	Pa	iste Special(P)			MathML(M)	•	Content(C)
	Ca	apture Screen(S)	F8	-	Unicode(U)		Presentation(P) Combined(O)
	Ca	apture Current Pan	el(A)	Г			Combined(O)

 $\emph{3.}$ Click the sub-menu item you want.

To copy data using this type of MathML markup:	Select this option:				
Content • Content markup captures the mathematical structure.	Content				
PresentationPresentation markup captures notational structure.	Presentation				
CombinedCombined uses content markup whenever possible. Otherwise, it uses presentation markup.	Combined				

• Please consult the Internet or other publications for full details about MathML content markup and presentation markup.

Copying algebraic Expressions and Text as Unicode Text

You can use the procedure below to copy text or an algebraic expression you selected on the ClassPad application to the Windows clipboard as Unicode text.

■ To copy algebraic expressions or text as Unicode text

- Select (highlight) the expression or text you want to copy by dragging your mouse pointer across it.
- 2. Click [Edit] [Copy Special] [Unicode].
 - This copies the selected expression or text to the Windows clipboard as Unicode text.
 - You can paste the copied text into any Windows application that supports text editing.

Copying an Entire eActivity

You can copy the entire content of an eActivity that is currently opened with the eActivity application to the Windows clipboard. The format of the copied data depends on whether it comes from a text row, calculation row, or strip.

- text row Copied as Unicode text. Since a natural display expression that was input with the 2D Keyboard into a text row is copied as Unicode text, the natural display format is lost. Text rows can be edited within other applications.
- calculation row Both the calculation expression and its result are copied as bitmaps. Because of this, a natural display expression that was input with the 2D Keyboard into a calculation row is copied as an image, just as it appears on the Resizable Window/Landscape Window. Calculation rows cannot be edited within other applications.

strip

The string "<Container>" is inserted in place of the strip. If the strip has a title, the title is appended to the right of "<Container>".

efault – 🗆 🗙	
Menu Resize Swap Keyboard	<u></u>
$\square \frac{1}{2} \xrightarrow{1} \qquad B \qquad A \neq \forall \forall$	Copy Special - eActivity - ×1

2D math expression in the text row: $\lim_{a \to 1} \left(\int_{a}^{b} x^{2} e^{ax} \left(\sin(x) + \frac{1}{x} + \cos(x) \right) dx \right)$	2D math expression in the text row: $\lim (\int (x^{2})e^{(ax)}(\sin(x)+((1)/(x))+\cos(x)), x, a, b), a, 1)$
2D math expression in the calculation row: $\lim_{a \to 1} \left(\int_{a}^{b} x^{2} e^{ax} \left(\sin(x) + \frac{1}{x} + \cos(x) \right) dx \right)$	2D math expression in the calculation row: $\lim_{a \to 1} \left(\int_{a}^{b} x^{2} e^{ax} \left(\sin(x) + \frac{1}{x} + \cos(x) \right) dx \right)$
Alg Standard Real Ready - Resizable Mode Normal 461x528	

Original eActivity

■ To copy an entire eActivity

- 1. Open the eActivity whose content you want to copy.
- 2. Click [Edit] [Copy Special] [eActivity].
 - This displays the sub-menu shown below.

		ClassPac	d Manager	-	×		
File(F)	Edit(E)	Applications(A)	Window(W)	Help(H)			
	C	opy Special(C)	•	e	Activity(E)	۱.	x1(1)
	P	aste Special(P)		N	1athML(M)	×	x2(2)
	с	apture Screen(S)	F8	U	nicode(U)		
	C	apture Current Pan	el(A)				

$\emph{3.}$ Click the sub-menu item you want.

To specify this option:	Select this option:
Calculation rows copied as actual size (\times 1) bitmaps	×1
Calculation rows copied as double size (×2) bitmaps	×2

- Clicking ×1 or ×2 copies all of the content of the currently open eActivity to the Windows clipboard.
- You can paste the copied text and bitmaps into WordPad or any other Windows application that supports text editing and bitmaps.

Resizable Mode/Landscape Mode Menu Commands

Shortcut Menu Commands

Using ClassPad Manager in the Fixed-size Mode

LCD Window

In the Fixed-size Mode, you can display only the screen portion (including the Icon Panel) of the ClassPad in a separate window, called the "LCD Window".

LCD Window

■ To open the LCD Window

Right-click anywhere within the ClassPad Manager or click the title bar, and then click [LCD Window] on the shortcut menu that appears.

■ To close the LCD Window

Click the × button in the upper right corner of the LCD Window.

Note

The LCD Window and ClassPad Manager are displayed at the same time. The ClassPad Manager cannot be closed.

Controlling the Window Zoom Settings

The Fixed-size Mode has three zoom settings: Small, Normal, Large. The LCD Window has three zoom settings: Normal, Large, Xlarge.

■ Changing the Fixed-size Mode Zoom Setting

Right-click anywhere within the Fixed-size Mode or click the title bar, and then click [Zoom] - [Small], [Zoom] - [Normal], or [Zoom] - [Large].

■ Changing the LCD Window Zoom Setting

Right-click anywhere within the LCD Window or click the title bar, and then click [Zoom] - [Normal], [Zoom] - [Large], or [Zoom] - [Xlarge].
