

TABLE

1. Construct a table of values that shows the price, number of shirts, and total dollars using increments of \$0.50.

To construct tables, from the Main Menu, press **[7]**. The equations for the functions appear if they have been previously entered, including those entered in the Graph menu.

To set the initial value, end value and the increment, press **[F5]** (SET). Enter the values for **Start**, **End** and **Step**. Press **[EXE]** after entering each value, then press **[EXIT]**. To display the table, press **[F6]** (TABLE). Use **[▼]** to scroll through the table.

*Note: values in the x-column can also be changed manually. Press any value desired, then press **[EXE]**. Here, the value of 3 was changed to 7.*
